**Please read the following regarding your senior portrait photo session:
(You may keep this page)**

- * Each student shall have 30-45 minutes time allotted with the photographer for their portrait session. In large groups, this amount of time may be reduced to accommodate all students.
- * **The sitting fee will be due in full at the time of the portrait session.**
- * You will choose one image for your senior portrait photo for the yearbook and you may elect to choose a different image for your print package. Please remember that when choosing your image for the print package, there is a ratio difference between 4x6 and 8x10. So please be sure that you select a photograph which has "dead space" at the top or bottom of it. This will ensure the best looking 8x10. Your image selection for the yearbook will be due no later than 7 days after your images have been posted online. After the 7 days, the photographer shall make a decision of which image to choose for the school photo.
- * You must set up your appointment with the photographer no later than 2 weeks prior to the school deadline. If you wait too long and fall in to the two week period, you will be charged a late fee of \$75 per student.
- * **A copy of the photo requirements that you have been given from your school must be mailed in along with this contract.** If you do not include one, it may get sized incorrectly and turn out different in the yearbook.
- * Please visit our website at www.stellar-ds.com to view tips on what to wear and what to bring with you for the day of your portrait session.
- * All images taken during the photo shoot will be posted online at www.pictage.com approximately 2 weeks after your portrait session. We will email you a link that will have the website address for your photos and they will be online for 3 months after they have been uploaded. This website will be available to all of your friends and family to be able to view the photos and purchase prints and/or print packages. You can also purchase a disc of all the images in high resolution format if you wish to print elsewhere.
- * We use all digital for all of the portrait shoots which enable us to switch the photographs from color to black and white on which ever photos you want. Some photos look great in color if the colors mesh well together and others look great in black and white if the lighting is fantastic. We will give you our picks of which ones we think look great in black and white and color and then if you wish to have some changed over, feel free to give us a call and we can do it in no time at all. Remember, these portraits are to bring out your personality during your high school years so be sure that you are your self the entire time. If you are shy, bring along a friend, if your parents would like to attend the session, feel free to have them join the fun. Maybe we can even sneak in a few of you and the parents - which would definitely make them happy.
